LB 118

SENATOR SIECK: No.

SENATOR HIGGINS:then a federal government car might be doing something abusive....

SENATOR SIECK: No, it would not affect them.

SENATOR HIGGINS:and if it just says Government on it, you know, then people might say, I wonder if that is the county or the state that is doing that.

SENATOR SIECK: Well see this is the reason I want State Government, County Government, Municipal Government and Schools.

SENATOR HIGGINS: You would have that printed on all the plates?

SENATOR SIECK: That would be printed on all the plates.

SENATOR HIGGINS: Municipal Government...

SENATOR SIECK: Right.

SENATOR HIGGINS: How big would the print have to be then for that?

SENATOR SIECK: I'm sure that will be worked out by the vehicle department.

SENATOR HIGGINS: I'm just wondering if you would be able to read it, Municipal Government.

SENATOR SIECK: Those that want to read it will be, I'm sure will read it.

SENATOR HIGGINS: These cars are not now identified on the side door?

SENATOR SIECK: Very few, just maybe one or two cars from the school districts may have one car identified in the school but most of the cars will not be identified. As you will notice the Public Power District, most of those cars are identified by a name plate on the car itself and also are the Natural Resource Districts.

SENATOR HIGGINS: Except the Director's. I don't think the Directors of our Public Power District have their cars identified. I don't think they want them identified. Thank you, Senator.
